

X-Press It®

PROJECT SHEET

EASY & FUN, MIXED MEDIA GIFT CARD

STEP BY STEP

WHAT YOU'LL NEED

- X-Press It Blending Card
- Gel Press mono printing plate
- X-Press It Brayer
- Copic Multiliner
- Scissors
- X-Press It Foam Squares
- Acrylic Paint

Ideal for
cardmaking

INSTRUCTIONS

Step 1: Draw out some love hearts onto your Blending Card of various sizes and then cut them out.

Step 2: Add a couple of drops of paint onto your gel plate and start rolling using the brayer. Roll your paint until it evenly covers the gel plate. Place some love hearts down flat onto the plate.

Step 3: Place your card down and gently rub the paper. Slowly peel off to reveal your heart pattern.

Step 4: Continue these steps to create textures. We created some textures and cut out some hearts and then use these to create a 3D effect on the front of the card using the X-Press It Foam Mounting Squares. Using your Copic Multiliner, add a nice message to your loved one.
